4 DAY SWAT Sniper Advanced Skills Course

This four-day, 32-hour course has been designed to provide certified SWAT Law Enforcement Snipers advanced engagement skills sets to include:

Topics to be addressed include, but not limited to:

200-600 yard zero & engagements / MILS.MOA range funding, range cards and computing elevation / settings for distances without established zeros / Positional shooting, tripods & barricades / moving target engagements, 100-200-300 yard movers / low light, night vision, thermal familiarization / vehicle & urban hides / high angle shooting and much more.

Ammunition Requirement:

400 rounds minimum of the same department issued ammo.

Note: If departments are transitioning to different types or brands of ammunition then recommend snipers bring this for re-zeroing and chronographing for adjusted velocities. Example; TAP AMAX to TAP ELD-M
